SIMMENTAL & CHAROLAIS

CELTIC HERD

(Female Section by Auction. Young bulls and Embryos for sale privately.)

Mountrath Mart, Co. Laois

Saturday 16th Nov - Sale at 12.30

73 females + 2 Stock Bulls

HEALTH STATUS: All animals tested to an export standard and eligible for export on the same day.
All animals tested BVD virus negative

Enquiries: Angela: 086 8810719 or Gerard: 087 2609851

Sale Commences at 12.30. **Auctioneer: Mr. Tom Cox.**

Sale Order:

1. **Charolais Females**
2. **Simmental Stock Bulls**
3. **Simmental 2012 Maiden heifers**
4. **Cow with Calf at foot**
5. **Cows and In-calf heifers, in order of predicted calving date**
6. **Empty cows**
7. **2013 heifer calves**
8. **Recipients carrying Pedigree Simmental Embryos**

Animals will be sold in Guineas, ie purchaser pays 5% commission.

All animals catalogued will be sold under the sales rules of the Irish Simmental Cattle Society Ltd. The Person that makes the final bid is responsible for payment, whether or not they are bidding on behalf of another party.

Payment:

- **All Cheques must be advised** by making arrangements with Mountrath Mart (Tel.00.353.57.873 2103 / Mobile: 087.1388 031)
- **Sterling Cheques will be accepted** on the date, subject to exchange rate posted in the Mart, based on the previous day's trading, and a handling fee.

Health Status:

Tests: All animals are TB tested to Export Standard within 30 days of sale. Eligible females also Brucellosis tested.

Vaccination: All animals in herd vaccinated against BVD. All females vaccinated with IBR marker vaccine. Latest vaccinations done in Oct '13, including all calves.

Health History: All animals in the current herd tested in 2009, free of IBR, BVD, Johnes, Salmonella, Neospora. Since then, we ceased showing cattle (with only one exception, this year). All animals entering the herd since then have been isolated for at least 5 weeks, and tested free of above listed diseases before being allowed enter the herd. In addition, all animals entering the herd are treated with Penstrep to kill any possible Leptospirosis infection.

Thank You

A very sincere thank you to :

- *Our families who have helped us so much over the years, especially when we were "long distance farming" from Germany, for seven years, and the Middle-East for 3 years before that.*
- *Special thanks to our late father Tom, who worked so hard during those years, and to David who was always there when wanted. David, we wish you continued success with the Anatrim herd.*
- *Fionn and Daire also did so much work between their studies – we are very grateful for all the help.*
- *The many Show Committees around the Country who have asked us to Judge, and particularly the International ones - the Royal Ulster Show in Balmoral, The German National Championship in Berlin, Styrian Suckler Breeds Championship - Austria, and The Scottish National Simmental Show 2014 invitation. Although we find judging stressful and an onerous task, we are honoured that you value our opinion enough to ask us.*
- *Our many Cattle breeding friends not just in Ireland and the UK, but also the great friends we have come to know in so many other countries.*
- *Martin Jordan, who has been with us through it all. With Martin, we had total peace of mind when away from home, that the cattle would be minded at least as well as by ourselves.*
- *Our fellow Simmental Council members and breeders, over the years, many of whom we are so happy to consider enduring friends.*
- *Nuala, Pauline and Barbara in the Charolais office, and especially John Beirne, for so much advice and good judgement over the years.*
- *Alfie and Elaine Shaw – it is seldom in life that one has the opportunity to meet people who are truly world leaders at what they do.*
- *Peadar and Carol for their constant and courteous assistance, not just when we served as President (Gerard) and later as Vice-President (Angela), but always to us, as normal breeders.*

We're just giving up Pedigree Breeding, we have no intention of falling off the planet just yet, God willing, so we look forward to seeing you all again.

Angela & Gerard Brickley

The Celtic Herd

Tom & May Brickley imported their first 8 Austian heifers in 1974, to found the Anatrim Herd. This too was the foundation of the Celtic Herd, as were the other importations that took place over the years, from Denmark, Germany, the Czech Republic, and Austria again.

The basis of the herd is, and has always been, the Original Dual Purpose Austrian Simmental. Over the years, we have studied Simmental in so many Countries: the UK of course, but also, Germany, Denmark, Czech Republic, Hungary, Austria, Switzerland, South Africa, the USA, and Canada. The breed has evolved in so many different directions both within and between these countries, that some bloodlines are so different from another, in both genetic makeup, and in appearance, as to be almost different breeds. In the course of these travels, we always had a clear view of what we wanted to produce for Ireland, and so we were able to choose only those animals that suited our objectives, and begin to fuse them together in the Celtic Herd. Our decision to Disperse, was sudden, and never envisaged, by us, at least. Consequently, the first real results of our fusing of these European bloodlines are the pregnancies that our cows and heifers are now carrying.

Our vision of a perfect Simmental is one which has all the muscling and natural fleshing abilities of a modern day Irish Simmental (the most highly muscled Simmentals in the World, at this time), but also with good milk, docility, and into the future, Polled also.

Milk is the most defining characteristic of the Simmental Breed in Ireland. Our best commercial customers in recent years have been really good commercial suckler farmers, who need to put more milk back into their females. The Simmental bulls they buy simply have to put more milk into their daughters. The relentless drive for more muscle and particularly also for size in the showring in recent years has resulted in some of the more popular lines loosing milk. It was inevitable this would happen, and that is why we went back to Austria in recent years to get an infusion of genetics that would have both beef and extra milk. (We are lucky that we both speak fluent German, which is of course a great advantage in having detailed discussions with German, Austrian and Swiss breeders)

Many of the animals in the herd trace back to three of the seven females we last imported from Austria. They were cows that could match any Beef Simmental in shape, and also had milk records that would put them at the very top of the modern day Irish dairy herd also. Their details:

- Fabiola – 6,784 kgs, 4.22% Fat, 3.82% Protein, Total solids: 545 kgs.
- Larissa – 7,526 kgs, 4.16% Fat, 3.35% Protein, Total solids: 565 kgs.
- Mecki – 9,209 kgs, 4.01% Fat, 3.88% Protein, Total solids: 727 kgs.

Polled breeding is becoming the norm in Europe. We estimate that over 90% of Beef Simmental breeding in Continental Europe is now focused on Polled. It is also starting to become popular in other breeds, and even in Dairy, where significant premiums now exist for Polled genetics. 48% of our In-calf females are Polled. Our policy on Polled is not to breed "blindly" for it, but rather, by planning matings carefully, to introduce Polled genetics, while at the same time improving our animals. Our best calves for the last 3 years have all been Polled, despite making up far less than 50% of the calves born in the herd.

CONDITIONS OF SALE AT AUCTION OF PEDIGREE CATTLE

The Highest bidder for each animal shall be the purchaser, and in the event of any dispute, the Auctioneer shall have absolute discretion either to settle the dispute or re-offer the animal immediately.
The Auctioneer may, without giving any reason thereof, refuse to accept any bid and may withdraw any animal for which the bidding is considered insufficient.
No person may advance less at a bid than a sum to be named from time to time by the auctioneer, and no bidding may be retracted.
The vendor may bid for any animal. or animals, and may withdraw any animal, or animals either personally or through the auctioneer, or through any person, as many times as they respectively may think fit.
The purchaser of each animal shall shall give their name and address to the auctioneer and pay for all animals purchased in cash immediately at the close of sale . No animal or animals shall be removed from the sale premises until paid for in full and a pass-out slip is obtained from the Auctioneer.
Each animal shall be at the purchaser's absolute risk from the fall of the hammer, and shall be removed from the sales premises at the purchaser's expense.
The right of property of each animal shall not pass to the purchaser until the full purchase price is paid and the contract of sale is signed by the purchaser.
Care has been taken to ensure the accuracy of the catalogue, but no sale shall be invalidated by reason of any defect or faults in any of the animals by reason of the animals being incorrectly described in the catalogue, or by the Auctioneer in the ring, and no compensation whatever shall be paid in respect of any such faults or errors of description.
All statements in the catalogue are made by the Auctioneer at the time of sale relating to any veterinary or other tests are to be taken as statements of fact only . No such statements shall guarantee the purchaser of any animal against loss arising from the subsequent reaction of such animal to any test administered after the sale, and the vendors shall not be in any way liable should this occur.
Neither the vendors nor the Auctioneers will be responsible for any accident or any injury to persons or property through fire or any other cause whatsoever, nor for any damages by animals prior to,
during or after the sale.
All animals are sold subject to the Conditions of sale recommended for use at auctions for the sale of pedigree cattle by the Irish Simmental Cattle Society Ltd.
The vendor gives no warranty whatever as to the fertility or performance of any bull, and each purchaser is invited to insure against this or any other risks, at his own expense.
Purchasers not complying with the above condition shall be subject, without further notice, to have their animals re-sold either by Public Auction, or by private Treaty, at the discretion of the vendor and the defaulter would be liable for any loss and expense that accrues on the re-sale.
The Irish Simmental Cattle Society accepts no responsibility for any errors or inaccuracies that may have occurred in the compilation of this catalogue.

PEDIGREE CATTLE BREEDERS COUNCIL OF IRELAND
CONDITIONS OF SALE TO APPLY ON ALL SALES OF PEDIGREE CATTLE.

These Conditions (and where appropriate at auctions, these Conditions together with the General Auction Conditions of Sale), form the basis of the contract between the vendor and the purchaser, and from the contract all conditions and warranties implied under the sale of Goods Act 1893 and the Sale of Goods and Supply of Services Act 1980 or any other statutory enactment or implied by any law or custom or usage are expressly excluded.
In the event of a Sale by Auction and there arising conflict betweenthese conditions and the General conditions of the Auction, these conditions shall prevail.
All animals are sold as they stand and the purchaser is deemed to have examined each animal and fully satisfied himself about the animal prior to sale.
Save as hereinafter provided, no warranty whatever is given as to the performance or fertility of any bull and the purchaser is herby invited to insure against this or any other risks connected with the bull, at his own expense.
The vendor shall and does hereby provide the following guarantee as to the fertility with each bull sold -(a) No guarantee whateve as to fertility is given with any bull under the age of nine monthsat the date of sale, unless otherwise stated in writing. (b) Subject to the Conditions hereinafter set out, the vendor guarantees that the bull is capable of putting a cow or heifer in a state of pregnancy by natural service within four months of the date of sale

or within four months of attaining the age of fourteen months, whichever is the later. This guarantee shall be deemed to be fulfilled whenever one female animal is proved to be in calf by natural service to that bull, subsequent to the sale. A bull shall not be deemed to be incapable of putting a cow or heifer in a state of pregnancy by natural service on a semen test only.

The foregoing guarantee is subject to the following conditions:-

The bull shall be fairly tried with a view to him putting a cow or heifer in a state of pregnancy by natural service within two months of the date of sale or within two months of attaining the age of fourteen months, whichever is the later. For the purposes of this paragraph, "fairly tried" shall not be deemed to have occurred when less than three female animals in season have been properly presented to or run with the bull.

If, upon purchase of the bull, it is found impracticable for the buyer to fairly try the bull within the period stated at paragraph 6(a) above, due to the purchaser's normal calving programme, the vendor must be informed in writing immediately after the sale of the month in which it is proposed to commence using the bull. The vendor shall not unreasonably refuse to extend to the purchaser within seven days of receipt of the said notice in writing from the purchaser.

The Purchaser shall give notice in writing by registered post to the vendor of an inability of the bull to put a cow or heifer in a state of pregnancy by natural service or a suspected inability in this respect, not before the expiration of one month nor after the expiration of three months from the date of sale or of the bull attaining fourteen months, or any extension of the commencement of the trial period granted pursuant to paragraph) 6 (b) above or whichever is the later.

Breeding Guarantee - Females Any cow or heifer realising 500 gns, or more that is stated by vendor as having been served or artificially inseminated not less than 12 weeks before the date of the sale shall be guaranteed in calf to the service date or date of artificial insemination and to the bull stated, unless any alteration to the service particulars is announced from the rostrum or by the vendor at the time the animal is sold. The term " running with the Bull" implies no guarantee of pregnancy unless specifically stated by the vendor at the time of sale, neither shall the provision by the vendor of a certificate of positive pregnancy diagnosis imply any such guarantee this being merely an expression of opinion. Every heifer sold as un-served shall be so guaranteed and all such heifers (unless sold suckling their dams) shall carry a guarantee that they are capable of breeding. Calves sold suckling their dams are given to the purchaser free and no guarantees apply unless specifically stated by the vendor at the time of sale. No claim under these Rules will be effective unless made to the Auctioneers or to the vendor within the following time limits,as applicable, viz:

In the case of a cow or heifer sold as being in calf which proved NOT to be in calf - within 49 days of the date of sale.

In the case of a cow or heifer which, although in calf, does not calve to the stated service or insemination date - within TWO CALENDAR MONTHS of the date that the animal should have calved according to the particulars of service or insemination stated in the catalogue of sale, in all such cases, no claim will be admissible unless there is an interval of more than four weeks between the presumed due date (according to the stated particulars of service or insemination) and the actual calving date. NOTE the average gestation period for cattle is 285 days.

In the case of a cow or heifer calves at a later date than the due date the onus of proving the identity of the service bull shall be upon the vendor.

In the case of a heifer sold as un-served and which subsequently proved to be in calf - within SIX CALENDAR MONTHS of the date of sale.

In the case of a maiden heifer which proves incapable of breeding because of malformation or abnormality of the genital system - not before the animal attains the age of TWENTY SEVEN MONTHS and no claim under this rule be admissible after the animal has attained the age of THIRTY SIX MONTHS. NOTE: Any female (cow or heifer) that has been flushed for embryo transplant will be EXCLUDED from the terms of this guarantee but individual vendors of such animals shall have the option of giving their personal guarantee to be announced at the time of sale. No claims will be admitted under these rules where it can be proved that a cow or heifer is carrying a mummified calf, or has aborted or re-absorbed a foetus and no guarantee is given or implied that any cow or heifer will carry a calf full time. All claims must be submitted to the vendor and the Secretary of the Society and shall be resolved in accordance with the provisions of clause (f) of this agreement.

This agreement shall be interpreted in accordance with the law of the Republic of Ireland.

Commision - 5% payable by the Purchases.

Simmental Females

- **Due Dates are calculated at 9 months and 8 days from service**

- **Imported heifers, in accordance with normal practice, will not be registered in the Irish Herdbook until they calve. The Celtic Herd will cover the cost of registering these in the Irish Herdbook. All pedigrees have already been checked by the Society and are eligible for full entry into the Irish Herdbook.**

Additional Information:
One of the best bloodlines from one of the top herds in Denmark. Sire Sirius P bred many of the best show cows in Denmark. Gamma is somewhat underdeveloped, as yet, only because she calved at 22mts following a very tough year. Nice heifer calf - Lot 19. Due 20th Dec to Bodybuilder.

Animal not scored.

Bulls used in the Herd

Over 90% of the Simmentals in the Herd are either by, or in-calf to one of the bulls in the following pages.
Many are by one of these bulls, and also in calf to another of them.

Anatrim Bodybuilder	➢ All Ireland Male calf champion, 2010 ➢ Combining all the best Anatrim Bloodlines from nearly 40 years of Anatrim breeding – Belinda (dam of Anatrim Kay), Josephine, Lucky, Jane, Jacob. ➢ Breeding very stylish calves with great back ends ➢ Easy calving
Celtic Comet P	➢ Exceptional Polled son of Sirius P, and out of Celtic Roxanne - a full sister to Celtic Rock. Roxanne was very well muscled and yet had lots of milk. ➢ Comet P's first calves are all easily born, with great style and width, and super toplines
Celtic Diceman P	➢ Very big framed bull with exceptional temperament ➢ Grand dam, Fabiola, was a tremendous Dual-purpose cow ➢ 5 other flushmates to Diceman P born in 2012, and all are among the best of the crop. ➢ Extremely consistent line, with Power, Muscle, Milk and superb temperament
Celtic Rock	➢ Twice National Champion, and full brother to Nobleman, also Twice National Champion, and out of Homemaker, also a National Champion (pairs), who sold with 8 month old heifer for €11,700 at 10 years old. ➢ Six sons have averaged Sterling £11,000 in Perth bull sales.
Celtic Starbuck	➢ Performance test station topper. ➢ Passing on his own exceptional temperament and early fleshing abilities ➢ Very strong milk pedigree from his sire
Curaheen Tyson	➢ 5 stars Maternal and Terminal, with very high reliability. ➢ Purchased jointly with Martin Regan for €20,000 as a calf ➢ National Male Calf champion 2006, full sister also National Female Calf champion same year ➢ Sire Hillcrest Champion is one of the all time greats of the breed ➢ Breeding exceptional females, with power and milk, as well as bulls that are full of natural fleshing, such as Anatrim Diamond 2, All Ireland Senior Calf Champion, 2012.
Glebefarm Tyson	➢ One of the widest bulls ever in the breed ➢ Daughters reported to be good milkers ➢ From the Anatrim Kay line, believed to be the only cow family to have bred Perth bull champions through 3 generations, and foundation cow for so many great animals from the Richardstown and Omorga herds. ➢ Sire of All Ireland Calf champion 2009, and Reserve Female Champion, Balmoral.
Snaebum Campari PP	➢ Homozygous Polled sire of Senior Calf Class winner in National Livestock Show, Tullamore, 2013 ➢ Homozygous Polled sire of Senior Calf Class winner in National Livestock Show, Tullamore, 2013 ➢ Breeding docile cattle with exceptional growth rate – one son set a new weight record of 877kgs at 365 days, on test, in Denmark ➢ Four performance tested sons had a phenomenal food conversion ratio ranging from 4.15 to 4.34 kgs feed per kg gain on test in Denmark ➢ Daughters have great calving ability
Celtic Vichy (Charolais)	➢ Vichy was overall Male Champion in National Livestock Show 2005, at only 16 months, having run with the cows in the spring, and beating mature French imported bulls. ➢ Sired Celtic Big Boy, Senior Male Champion at N.Ireland National Charolais Show in Fintona, 2007, at only 18 mts, and weighing 1050 kgs. ➢ Vichy is a ¾ brother to Celtic Titan, sold at 10 mts to Jimmy & Enda McGee, Athlone, for €11,200
Lykke Atlantis P	➢ Danish National Champion, and sire of many Champions there. ➢ Very big long bull – top sire of Show cattle in Denmark for a number of years.
Lykke Sirius P	➢ Sire of many Champions also in Denmark, and renowned throughout central Europe as a sire of exceptional cows. ➢ His daughters are very big, easy fleshed cows with great show character

Pregnant Recipients:

Lots 67A – 67F will enter the ring together.
All are carrying **an Embryo Celtic Roxanne x mixed semen from Campari PP and Sirius P.** Calf will be ¾ parts or full sibling to **Celtic Comet P,** sold privately to top UK Show herd Heathbrow (David & Lesley Sapsed). All these recipients are carrying their second embryo calf, having successfully reared the first one (Dec '12 calves).

Bidding will proceed as normal on a per animal basis.

At the fall of the hammer, the highest bidder has the option to take one or more of the lots 68A – F.

Any which the first buyer does not take will remain in the ring, and bidding will commence again for those, on the same basis.

Lot	
67A	IE 2211261 30922. Black whitehead Simmental x Friesian. Due 11th Feb.
67B	IE 2211261 30963 Simmental x Friesian, due 11th Feb.
67S	IE 2211261 90985 Black whitehead Simmental x Friesian, due 11th Feb.
67D	IE 2211261 40989 Charolais x Simmental x Friesian, due 11th Feb.
67E	IE 1916286 40497. 4rd Calver – her second calf, a natural born heifer calf was purchased by Teagasc, Grange, to help establish the new High Index Suckler herd. Good quality cow in her own right. Due 3rd March.
67F	IE 2211261 10986 Due 3rd March. Charolais x , due 3rd March.
68	DE 15046 12273 Polled PB Non Registered German Recipient (2nd calver – calved on her own first time) due 11th July '14. Carrying **Embryo Kristin PP x mixed semen Bodybuilder & Celtic Comet P.** Kristin is an exceptionally tall and long Homozygous Polled heifer, imported from one of Germany's top herds, and subsequently sold to Curaheen Herd.
